

Lansing Veterinary Hospital

Pre-Surgical Consent Form

Owner's Name _____ Animal's Name _____

Procedure: _____

I am the owner or agent for the owner of the above described pet and have the authority to execute this consent. I hereby consent and assume financial responsibility of the above described procedure/surgery. I understand that there are always potential risks when using anesthesia or performing surgery on an animal. I understand that during the performance of this procedure, unforeseen conditions may be revealed that necessitate an extension or variance in the procedure(s) set forth above. I expect Lansing Veterinary Hospital to use reasonable care and judgment in performing the procedure(s). The nature of each procedure, and risks involved, has been explained to me and I realize results cannot be guaranteed. I am also aware that unforeseen events resulting from the procedure will not relieve me from any obligations for all reasonable costs incurred.

Pre- Anesthesia Blood Screen

Like you our greatest concern is the well-being of you pet. Your pet is scheduled for anesthesia and/or surgery. Before putting you pet under anesthesia, we will perform a full physical exam. However, we recommend a pre-anesthesia blood profile to be performed in order that we may maximize patient safety and alert the doctor to the presence of dehydration, diabetes and/or kidney or liver disease, which could complicate the procedure. **If your animal is over the age of six (6) years old this procedure is mandatory.**

I assume full responsibility for this animal. I understand that there are always potential risks when using anesthesia or performing surgery on an animal.

Please (**circle one**) **complete/ do not complete** the blood work you recommend prior to surgery on my pet. If abnormalities are found, please contact me at this phone number:
